 commercial litigation
 Corporate lawyer

Q8. Is there a speaker/topic you would like to see in future Professional Development events?

no
 Leo Posen again
 Advanced seminar on EEO issues
 YES! I would dearly love a "superannuation package". There are several areas us super. lawyers need to know about and when it's all put together and pitched at us specifically, it's very useful. Unfortunately, it's not often done and I don't think it happened in the 07/08 CPD year. I would lover to get all my CPD points at a superannuation lawyers seminar or similar. Topics might include: Trusts Ethical issues for in-house lawyers Management Skills for in-house lawyers Estate Planning Contracts Insurance Litigation and claims Corporations Law (chapters 2 and 7) Dealing with Regulators Superannuation Industry (Supervision)Act and APRA Financial Planning I could go on and on.....

Q9. How did you hear about this event?

Q10. We welcome any other comments you may have

This was high entertainment value but little relevance to my practice. Perhaps a bit unfair to other presenters who used powerpoint which had been comprehensively bagged by this presenter

The speaker did not provide an example of an effective legal presentation. You can't use Nessun Dorma for a presentation on, for example, the Crimes (Destruction of Documents) Act.

Presenter probably should not overuse American examples. None of the examples really related to solicitors in practice in Australia!

remove professional skills as a compulsory unit

Best presentation in a long time!

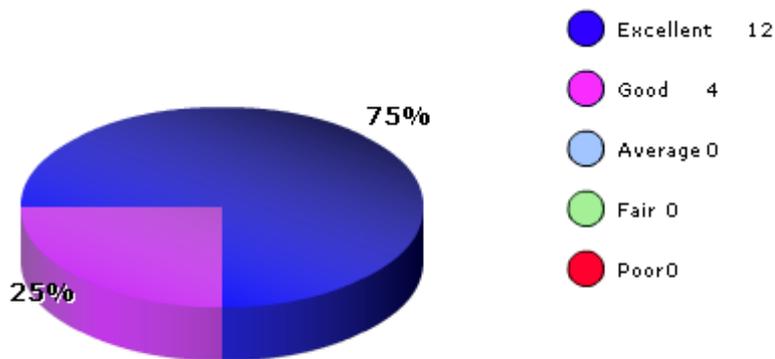

Mr Posen really knows what he's talking about and it's a message that everyone who has to sit through presentations will be glad their presenter has understood.

the room was unsuitable, too narrow and confined. also morning tea should have been set out better to avoid the crowds and people having to wait

Comments

See above: I think he should be a regular on your program as the vast majority of people have no idea how to present in an interesting and effective manner.
